

Transport Chairs

Transport Chairs

Use specialised transport chairs to increase transport efficiency and reduce carer risk through unique designs that are designed to move heavy or critical patients throughout healthcare facilities.

Contour Energy

Energy Defib Shelf

Energy Document Holder

Energy IV Pole

Energy Oxy Holder

Contour Energy

A transport chair with ZERO effort, 4-way power drive reducing the risks of strain during patient transport.

Key Benefits

- **Ergonomics & intuitive:** Drive effortlessly in any direction with only the slightest of touch, paired with perfect positioning of the drive controls for ease of use.
- **Easy access:** The large footplates offer generous support to your patients and lift quickly for clear egress.
- **Powerful movement:** A rotating electric drive wheel provides excellent traction, while center steering makes patient transport easier over longer distances.

Why Buy?

Take all the human effort out of pushing and manoeuvring chairs with an intuitive and intelligent drive system designed for easy use by any operator. Natural movement controls the speed and direction of the chair with the ability to stop very quickly by pulling back. Help prevent the most common carer strain injuries by taking the back twist out of moving heavy weight forwards, backwards and sideways. Patients are positioned comfortably with a gentle recline and feet fully supported. We've taken care with every aspect of design to ensure comfort and efficiency for both the patient and carer. Customise for a wide range of healthcare areas with relevant accessories.

Contour Energy

Ergonomic

Drive effortlessly in any direction by only light touch.

Intuitive

Perfect positioning of the drive controls for the operator.

Support

The large foot plates offer generous support to the patient.

Easy access

The large foot plates lift quickly and easily for clear egress.

Full clearance

Complete frontal clearance by lifting and rotating foot plates outwards.

Removable armrests

The side armrests can be fully removed for multi direction egress.

Versatile

Use the storage shelf during transport or customise with accessories such as IV poles, oxy holders or seat belt.

Specifications

- **Size:** 750mm W x 1300mm L x 1180mm H
- **Seat Size:** 650mm W x 520mm D x 550mm H
- **SWL:** 300kg
- **Castor Size:** 150mm
- **Package Includes:** standard IV & vertical oxy holder

- Contour Energy Package: MPC-C-ENT-EDU-P

Energy Defib Shelf

Strong, easy access perforated shelf that is securely mounted for defibrillator storage.

Key Benefits

- **Purpose built:** Powder coated aluminium panel that is perforated for dust control.
- **Versatile design:** Simply install or remove with the two lower backrest cushion retaining knobs. Can be used with the Energy Document Holder.

Specifications

- **Storage size:** 580 wide x 330 deep x 35mm high

Energy Document Holder

Easy access perforated holder that is securely mounted for document storage.

Key Benefits

- **Purpose built:** Powder coated aluminium panel that is perforated for both visibility and dust control.
- **Versatile design:** Simply install or remove with the two lower backrest cushion retaining knobs. Can be used with the Energy Defib Shelf.

Specifications

- **Storage Size:** 400 wide x 150 high x 20mm deep.

Ergonomic

Energy IV Pole

Height adjustable, non-rotational pole that fits both rear corners of the chair.

Key Benefits

- **Practical:** A strong and safe hook design with light and easy 'lift out' auto-lock hanger and non-rotational design to prevent tube tangling.
- **Easy to use:** High strength locking for heavy loads with tough construction from stainless steel and nylon and 'pull-down' release from any angle.
- **Versatile:** Large 28mm diameter stand body for ease of pump mounting.

Specifications

- **Adjustable:** 705mm up to 1135mm total height
- **SWL:** 10kg weight capacity, 5kg per hook
- **Product weight:** 1kg total

Product Code

- MPC-CA-IVP

Ergonomic

Energy Oxy Holder

C size oxygen bottle holder which can be mounted to the rear corners of the Energy chair.

Key Benefits

- **Solid design:** Powder coated stainless steel construction.
- **Built right:** Comfortably holds a standard C-size oxygen bottle.
- **Versatile:** A choice of mount positions.
