- Dropsides; MPT-CXA-5RD
- Base cover with storage; MPT-CXA-BC
- 175mm large castor option; MPT-CXA-175

Summary

This patient platform is typically used in a wide range of areas such as medical clinics, examination rooms, schools, prisons and mining sites. Helping patients on and off an examination table is easy and safe with a design that allows the mattress platform down to 400mm, lower than a standard office chair height! Uniquely, these stretcher examination tables are designed to be easily moved around and re-positioned due to their light-weight build and large castors. There are a range of accessories and customisations available to ensure the unit is designed to be priced and configured best to practically fit into your modern facility.
