Stacking IV Pole

Save space with this high quality stainless steel IV pole and store twice as many in almost the same floor area.

Key Benefits

- | Adjustable height - 1620 to 2070mm
- | 75mm diameter dual wheel, medical grade castors
- | 8kg weight capacity / 2kg per hook
- | 560mm diameter stainless steel base / 6.5kg total weight
- | 29mm diameter stainless-steel pole for easy pump mounting
- | 4 x rams horn hooks
- | MADE IN AUSTRALIA

Product Codes

- Stacking IV Pole - SCIV-S
- Push Handle - SCIV-SSPH

Why Buy

Reduce clutter with these robust stainless steel, stackable IV Poles. Simple one-hand height adjustment and generous hanging space on the practical hook design, makes these poles a pleasure to use. Now that you can store many more IV Poles in the same floor area is an added bonus!

Height adjustable

Optional handle

Stacking IV Pole - Premium

Fully stainless steel, very compact, weighted stacking IV Pole with easy adjustment and safety hook design.

Key Benefits

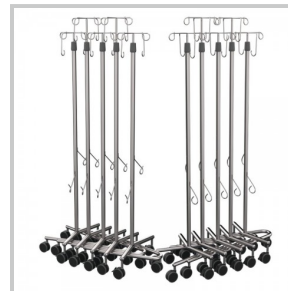

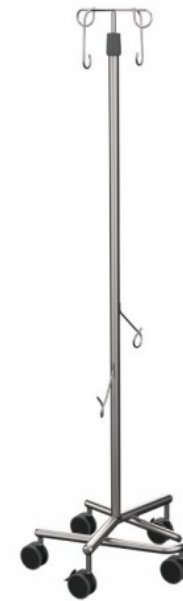

- | Solid stainless steel compact and stable base
- | Rounded, non-obtrusive and safe design
- | Lower swiveling catheter hooks for ease of use
- | 28mm diameter pole size for pump mounting
- | 4 hook design, 250mm across with 60mm height difference between hooks
- | One hand lift and lock with simple release
- | 10kg pump and 10kg hook capacity (evenly distributed, max 2.5kg per hook)
- | Adjustable height pole from 1610 to 2060mm
- | Small 470mm diameter / 12kg weighted base
- | Quality, quiet, smooth 75mm twin wheel castors
- | Optional adjustable height grab handle
- | MADE IN AUSTRALIA

Product Codes

- Stainless steel IV with catheter hooks - SCIV-SWBP
- Adjustable handle - SCIV-SSPH

Why Buy

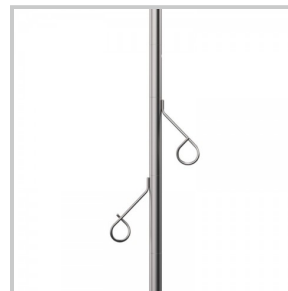

Store more IV Poles into the same floor area with these high quality, Australian made stackable IV Poles. The solid stainless steel, welded design will ensure a lifetime of use. A simple one-hand height adjustment and generous hanging space on the special hook design makes these poles a pleasure to use. The catheter hooks safely revolve to prevent the unwanted catching of loose garments. The extra heavy, rounded base design ensures very smooth and safe use.

Stackable

Height adjustable

Safe hooks

Optional handle

IV Double Hook

Change to a dual hook to restrict the carrying capacity and keep the IV compact during transit.

Key Benefits

- Stainless steel twin hook design
- 160mm wide x 50mm deep

Product Code

- SCIV-SS2H

Why Buy

In some cases a smaller top design with less hooks may be required to control the weight and bulk of clinical products that can be carried during transportation, or if there are tight space constraints.

IV Push Handle

Adjustable push handle which can be fixed into your desired height.

Key Benefits

- | Ergonomically constructed handle
- | Lock into desired height position
- | Easy to clean with no coated surface to wear

Product Codes

- Silver (Standard) - SCIV-SSPH-SIL
- Blue - SCIV-SSPH-BLU
- Fluro Green - SCIV-SSPH-FLGRN
- Dark Green - SCIV-SSPH-GRN
- Purple - SCIV-SSPH-PUR
- Red - SCIV-SSPH-RED

Why Buy

Assist patient movement with a compact yet convenient handle that is ergonomically rounded for safety. The handle construction ensures best hygiene control with an easy to clean, non-coated surface.

Now available in a range of clamp colour options to help manage your IV poles.

IV Storage Basket

Clean and compact wire basket to hold small accessories

Key Benefits

- | Dust free wire storage basket
- | 220 D x 135 W x 125mm H

Product Code

- SCIV-SSSB

Why Buy

In some cases a small basket is required to store critical supplies or assist in patient movement. The dust free wire design helps to combat infection hazards.

IV Oxy Holder

Carry and store a C sized oxy cylinder in a compact holder.

Key Benefits

- | Stainless steel construction
- | Holds C sized oxy cylinder

Product Code

- SCIV-SSOH

Why Buy

This oxy holder allows the IV poles to still stack closely together to preserve the largest amount of precious space in tight facilities. Simply lift in and out the oxy cylinder as required.

IV Coloured Bases

Choose a colour for your IV pole base to assist in departmental identification.

Key Benefits

- Standard colour range with custom flexibility
- Durable powder coated colour coding

Product Code

- SCIV-SSCB

Why Buy

Ensure your IV poles are easy to identify and remain your departments special property with highly visual colour coding. Choose from a range of standard colours or we will work with you to meet unique custom requirements.
