About Us

Select Patient Care is a long-established, 100% Australian family-owned designer and manufacturer of patient transport and procedure products. We work closely with hospital staff and project teams to deliver a range of medical carts, trolleys and clinical equipment.

Our purpose ‘to make nursing easier’ is supported by our following five core values;

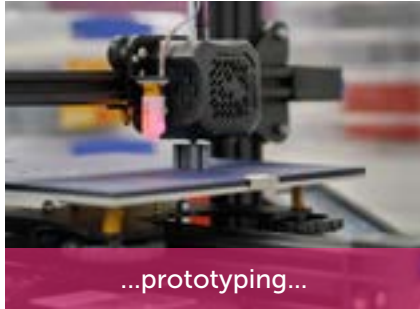

- You first.** Others before myself.
- Smile.** A positive attitude always wins.
- The extra mile.** Exceed expectations.
- Do what’s right.** Be true to yourself.
- Our quality handshake.** Never pass on a defect.

On location demonstrations for the Healthcare Industry.

Unlike many suppliers in the health industry, Select stands out by prioritizing the needs of healthcare professionals - Select goes the extra mile by offering free onsite demonstrations & trials of specific products.

We understand that it’s essential for nurses to have firsthand experience with the equipment they will be using daily, with this in mind, keep an eye out for products with the “Demonstrator Available” symbol and chat to one of our experienced Sales Team to arrange an on-site demonstration.

This commitment to personalised support sets Select apart, reinforcing our dedication to delivering solutions that truly meet the demands of the healthcare environment.

Wire Storage

Wire storage systems are vital in the Healthcare industry today to help maintain operational effectiveness whilst enhancing both clinical and physical safety. Benefits include the prevention of dust, mould, and harboured bacteria, increased water flow in the event of fire, workplace organisation and efficiency.

Wire Bins

Fit more stock into tighter spaces safely with our easy to assemble system using numbered shelf positions. We have designed standard kits making it smarter for you to manage.

Wire Bin - Extra Small
175 D x 100 W x 85mm H

Wire Bin - Small
220 D x 135 W x 125mm H

Wire Bin - Medium
275 D x 200 W x 165mm H

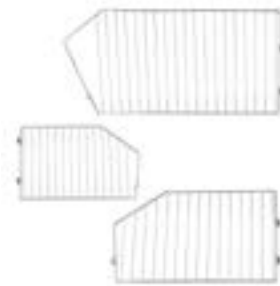

Wire Bin - Large
300 D x 435 W x 165mm H

Wire Bin - Extra Large
450 D x 435 W x 220mm H

Wire Bin Dividers

Help manage long, thin items, keep products of the same type together or allow a greater amount of stock to be stored into a more compact space by using easy to install Wire Bin Dividers.

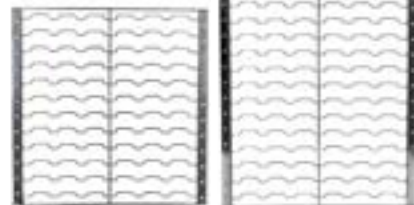

Wire Bin Panels

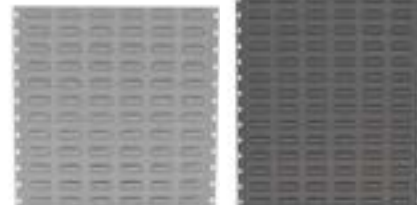

Choose between our traditional powder coated metal louver panels or dust free wire panel system to securely hang bins in many configurations. Mix and match the panel heights to suit your application requirements.

Half Width Wire Panel
235 W x 450 mm H

Full Width Wire Panels
450 W x 450mm H
450 W x 900mm H

Full Width Louvre Panels
450 W x 450mm H
450 W x 900mm H

Wire Bin Packages

Simplify your storage with our safe wire bins, designed to work in with existing wall mount louver panels or on our unique wire mounting system, with a variety of stacking, divider and labeling options.

Choose from a variety of wire bin configurations that are tailored to suit your unique requirements for any facility - Build your way.

Wire Bin Stackers

Don't have any wall space? Use these clever stacking frames to safely and efficiently stack up to a few bins in seconds. Keep your work space organised and save space on the floor, shelving units or a work bench. View the range to see which best fits your bins.

Freestanding Wire Bin Rack

Our simple and redesigned Freestanding Wire Bins Rack is your solution to maximising the use of restricted space areas and storage management of your sterile stock. Our Freestanding Wire Bins Rack enable you to set up wire bins and storage options before room fit outs are completed. They also prevent walls from being damaged or modified while saving time and costs. A simple system that can be built your way.

Static & Mobile Wire Shelving

Fit more stock into tight spaces safely with our high-quality, easy to assemble Selcare wire shelving system. Standard kits make it simple for you to manage, transport and store your sterile stock.

Available in a wide range of layout options.

Static Wire 4 or 5 Shelf Units

Depths: 460 or 610mm / Lengths: 610, 914, 1220, 1525 or 1830mm / Heights: 1880, 1900 or 2100mm

Mobile Wire 4 or 5 Shelf Units

Depths: 460 or 610mm / Lengths: 610, 914, 1220, 1525 or 1830mm / Heights: 1880, 1900 or 2100mm

Compactor Units

Fit more stock into tighter spaces safely with our high quality and easy to move compactor shelf units providing you with clear uninterrupted floor space for easy cleaning and trolley access. There are many shelving sizes available and the ability to utilise any space very effectively.

Not sure on what you need? Why not contact one of our highly experienced Sales Team today, and let them guide you through your new or updated compactor layout.

Floor space layout designs.

Our skilled team has access to time saving visual computer modelling software to help you map, design and finalise your requirements.

Dust Covers

Tailor made to fit your trolley or shelving unit, our flap back cover has a heavy duty zip running down each side of the front entrance flap, which can be folded right over to allow full access. These covers can be made fit most shapes and include other useful features such as push handle slots.

Wire Basket Trolleys

Transport your goods with our popular range of lightweight chrome wire-basket bench or underbench trolleys. An added extra, each trolley comes with a stainless steel top for extra workspace when not under a bench. If your needs extend outside these products, please contact our Sales Team and they can assist.

Basket Trolley Narrow

Care & Day Chairs

We have a growing list of unique clinical products for all areas of the healthcare industry. Let us become your trusted partner in supplying new, innovative solutions to your workplace environment! By listening to those in the industry, we develop and source the very best in clinical equipment, so you can care for your patients with absolute confidence.

Manual Recline Chair

With rounded edges to avoid damages and injuries this chair comes standard with an ergonomic supportive backrest, high-quality fabrics/ vinyl in a variety of different colour options, double stitched sealed seams, rear handle at the back for easy movement and simultaneous raising of the footrest as the back reclines.

Available in a variety of colours.

X2 Deluxe Chair

Offering a superior level of pressure care, this is an ideal seating solution for clients sitting for long periods requiring comfort and postural stability. Contoured backrest features lumbar and lateral support and memory foam in seating area contours to the client reducing pressure.

Examination Tables

A curated selection of the most popular innovative and market-leading treatment tables that support the needs of clinical, medical and rehabilitation staff across all parts of the healthcare industry.

UX10 Exam Chair

The UX10 Exam Chair's breakthrough design maximises everyday patient comfort and caregiver efficiency for examinations and treatment. A specially designed examination chair and bed in one – for new levels of comfort, safety, ease and flexibility, even in the tightest spaces.

Variable Positioning
Improved patient comfort

Easy Transfer
Convenient positioned handles and large wheels

Lay Flat or Tilt
Transition a patient from seated position to lay flat or tilt in seconds

Ultra-low Height
Make it easier and safer for patients to get on or off

Contour Exami

Helping patients on and off an examination table is easy and safe with a design that allows the mattress platform down to 400mm, lower than a standard office chair height! Uniquely, these stretcher examination tables are designed to be easily moved around and re-positioned due to their lightweight build and large castors.

PATIENT CARE

Privacy Screens

This solid, mobile design consists of strong panels framed in aluminium, with easy to clean wipe down laminate. The compact free-standing unit is quick to pull out or store away.

Chair Scales

Featuring a patented ergonomic design which ensures all a patient's care needs are met including safety, comfort, caregiver's use, and maintenance.

Handrail Scale

These scales are very accessible with wide side ramps. Advanced compensation technology eliminates involuntary movement made during the weighing process and ensures exact information.

X-Cart

The X-Cart is ideal for a wide range of uses within the healthcare workplace! It can be completely folded by the push of a button on the handle. The wheels can be removed and stored for compact transport and storage. A robust foot pedal brake allows the X-Cart to be locked in position whilst loading or unloading.

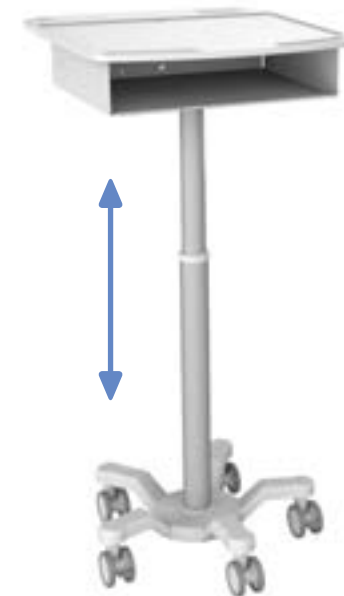

Rounds Trolleys

Work positioning could never be too important for the carer. Simple, one-handed gas assisted adjustment can help to take away the back and neck strain that is caused using traditional fixed height stainless steel trolleys. The Modsel rounds trolley designs have large twin wheel castors making it easy and safe for the carer to take the trolley over all internal floor surfaces.

IT & Charts Trolleys

We ensure your rounds trolleys are exactly fit for purpose with the ability to tailor make the trolley top size and shape. Stationery and IT accessories can be stored safely and secure, or for ready access and immediate use.

Contour Conceal
Width Options

Contour Energy Transport Chair

Help prevent the most common carer strain injuries by taking the back twist out of moving heavy weight forwards, backwards and sideways. Patients are positioned comfortably with a gentle recline and feet fully supported.

Natural movement controls the speed and direction of the chair with the ability to stop very quickly by pulling back.

Luggage Holder

Use the storage shelf during transport to secure personal belongings.

Powerful Drive

An electric driven wheel pressured onto the floor that provides excellent traction and centre steering.

Mental Health Furniture

You cannot do any better than our selection of Abecca Mental Health Furniture.

A safer solution that won't cause harm when tampered with as all the pieces are covered in medical grade waterproof fabrics with HF sealed seams, the ultimate in infection control prevention.

Sensory Rocking Chair

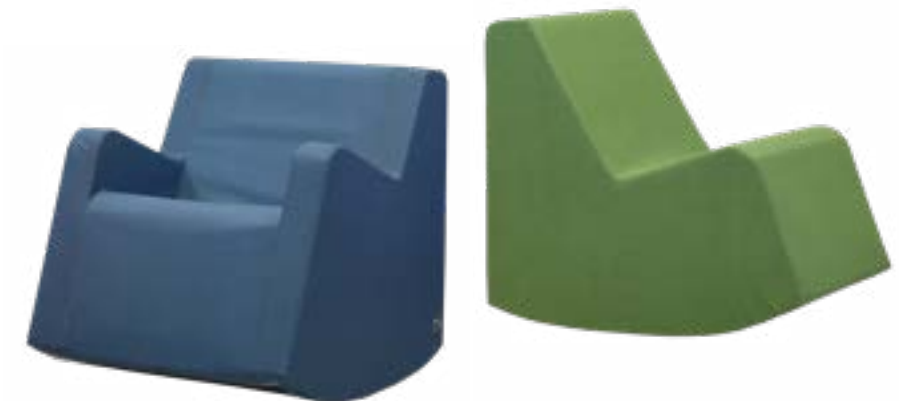

Ergonomically designed to gently rock this rocking chair is 100% waterproof with high frequency sealed seams. Perfect for sensory modulation and de-escalation and provides therapy with frequent use.

Upright Rocking Chair

Available both with and without arms the upright rocking chair is easy to get in and out of with a shaped base and provides comfortable upright seating posture without the over rock.

Available in a range of different colours to suit in with your existing set ups.

Single Chair

Flexible back to assist with agitation, reducing restrictive feelings that a standard chair can give. Carefully designed not to tip when swinging and generous sizing is considered for patients of size.

No legs or hardened back that could be broken or dangerous. This single chair can be used as a stand alone or as modular seating in conjunction with the foam dining table options.

Popular Accessories

IV Pole

Foot Rest

Oxy Holder

Bean Bag & Bean Chair

The range of bean bag and chair options are designed with commercial grade beans that easily align to body contour. The range also includes fully sealed seams, eliminating the risk of fluid ingress.

Square Dining Table

Super lightweight design (10kgs), generous tabletop size and interlocked foam structure for added strength and longevity. Includes fully sealed waterproof cover and can stand-alone, no need to bolt down.

Option to digitally print board games onto the table top.

Round Dining Table

Super lightweight design (9kgs) coupled with interlocked foam structure for added strength and longevity, if tampered with or thrown, makes this table safer in design. The fully sealed waterproof cover assists with stability and infection control prevention.

Stand-alone and no need to bolt down.

Games Ottoman

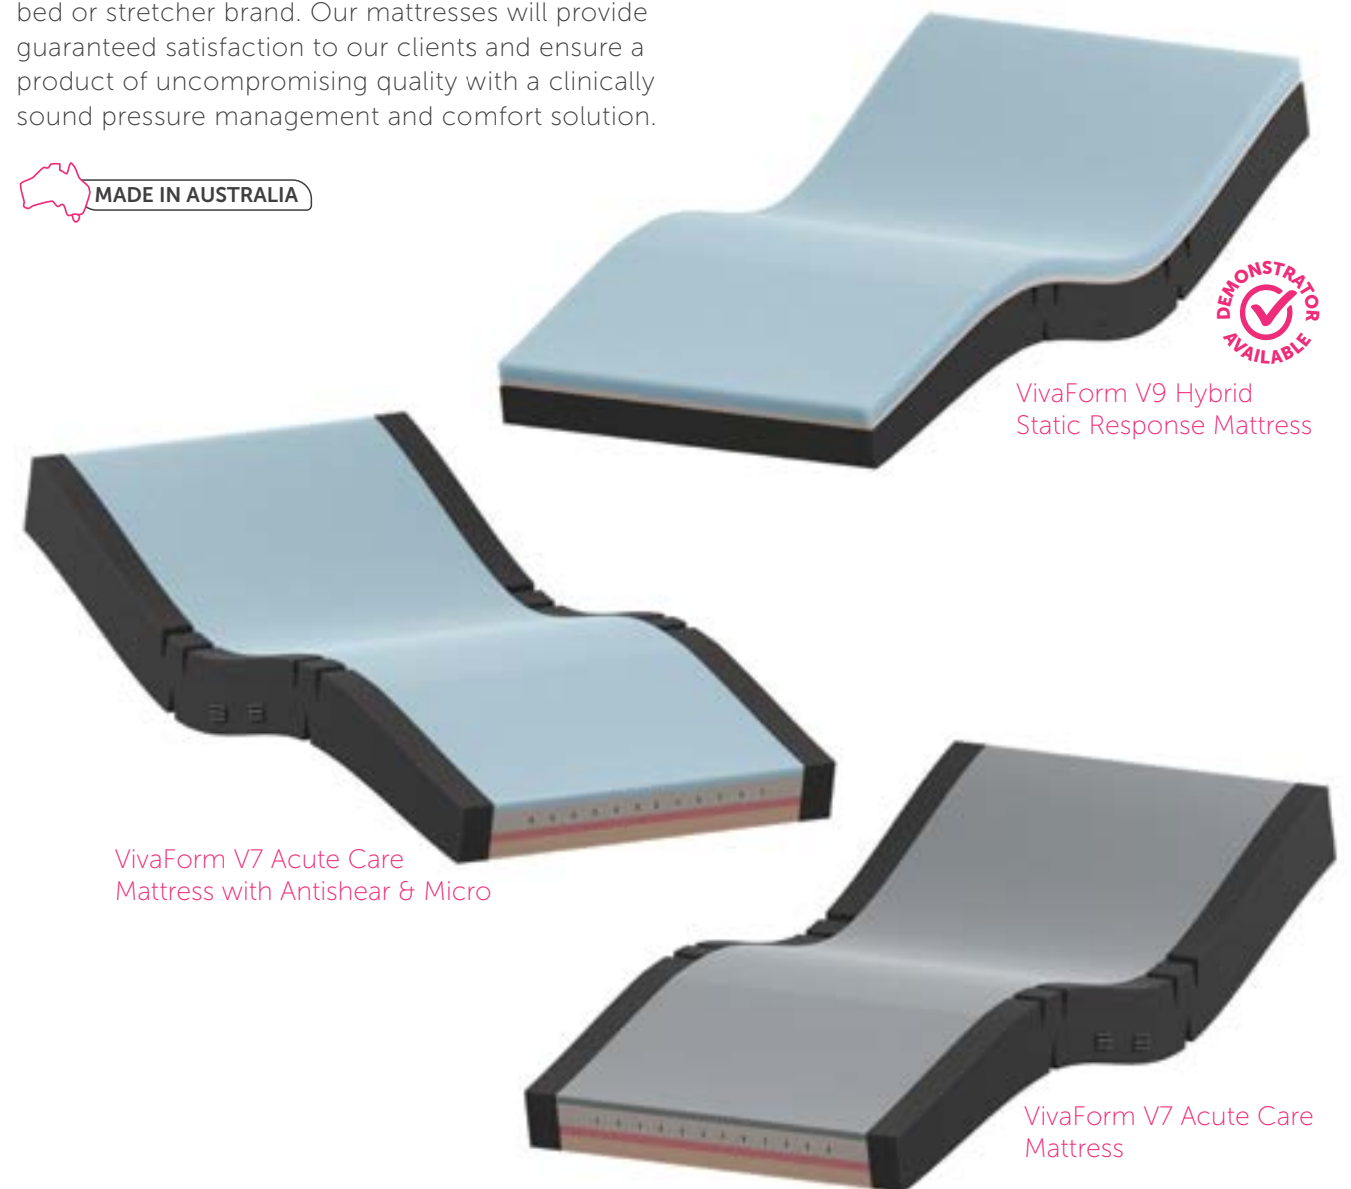

Light weight design makes it easy to move around, digitally printed with snakes and ladders or chess / checkers board game. Works best in conjunction with single chairs and is designed with single density foam for ultimate stability.

Pressure Care

Medical staff need to be assured that the patient is recovering with support surfaces designed to assist in vital procedures, whilst offering the highest level of comfort. Due to increased waiting times, pressure related injuries have grown to become costly to both the patient and the health system. We have established a range of stretcher mattresses and cushions to help cater for the widely varying requirements.

VivaForm Mattresses

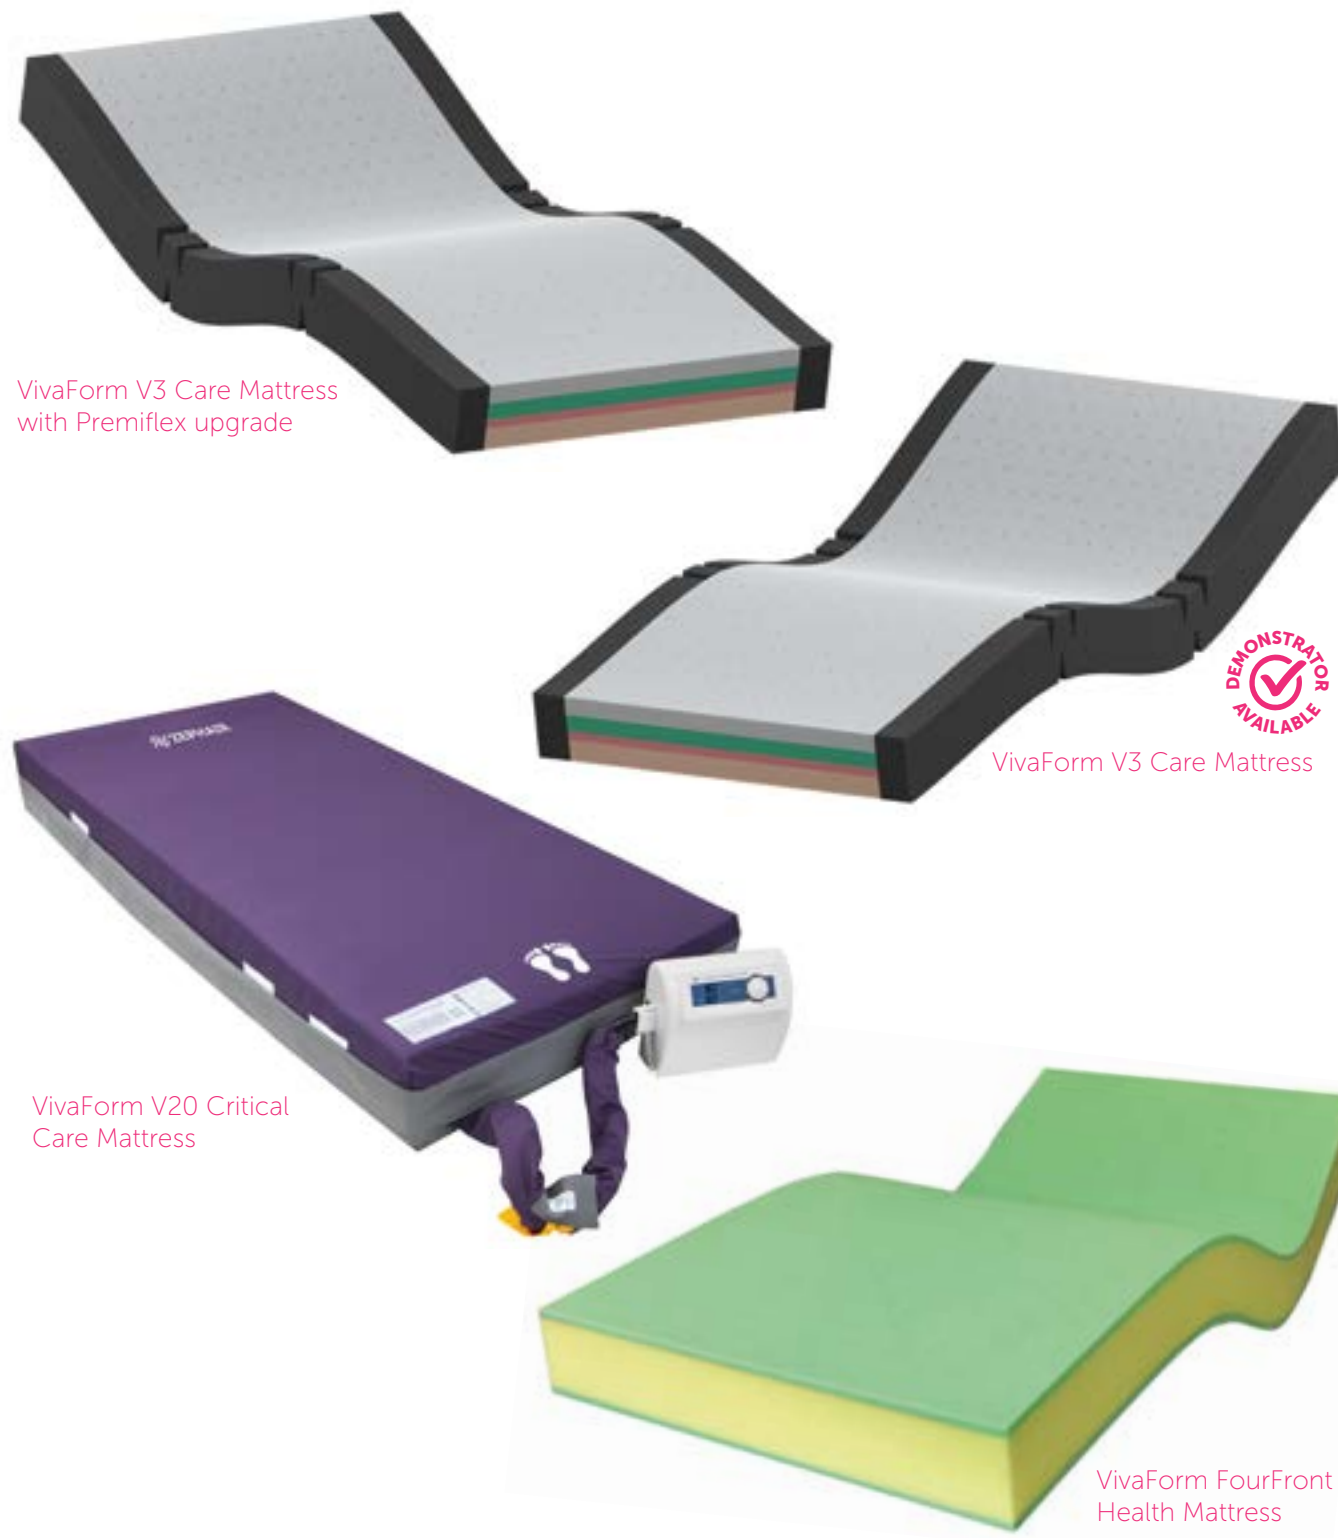

We provide the complete package of medical foam conversion and medical cover production for any bed or stretcher brand. Our mattresses will provide guaranteed satisfaction to our clients and ensure a product of uncompromising quality with a clinically sound pressure management and comfort solution.

Repair Patches

Our medical repair patches are the first surface repair for hospital beds, chairs and clinical equipment that restore damaged surfaces to an intact and hygienic state. We see holes and tears that are left bare or covered with sticking plaster. Reduce risk to patient safety by safely and economically repairing holes and tears on stretch materials and vinyls with our TGA certified solution, validated by independent infection prevention

Stretch Repair Patches

Made from a thin PU stretch material, these patches conform to the soft pressure relieving materials commonly used to cover hospital bed and stretcher mattresses or comfort chairs. Make up to 20 repairs for less than the cost of a new mattress!

Successful Patch

Variety Kit
